

WiserAir

Increased Comfort. Increased Control.

July 2015 Update

We're giving you increased energy insights and control to maximize your comfort. With release v1.0.0 we've integrated top rated weather, Ready Modes, Comfort Boost, Schedules, and more.

System Mode

The System Mode is now visible from the home screen.

Comfort Boost

Enjoy maximum comfort in no time with hassle-free convenience. Simply hold down the setpoint arrow to activate Wiser Comfort Boost

Settings

Change options like System Mode and Fan Mode easily from your Settings screen.

Thermostat:

→ System → Mode/Fan

Mobile:

→ Settings → System Mode/Fan Mode

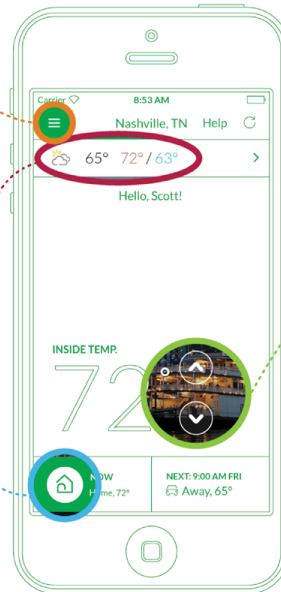

Ready Modes

Tweak your energy schedule to your exact, personal settings with just one touch.

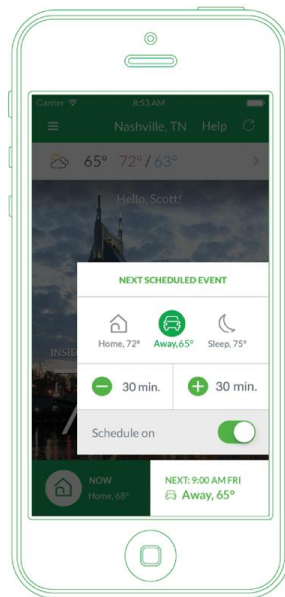

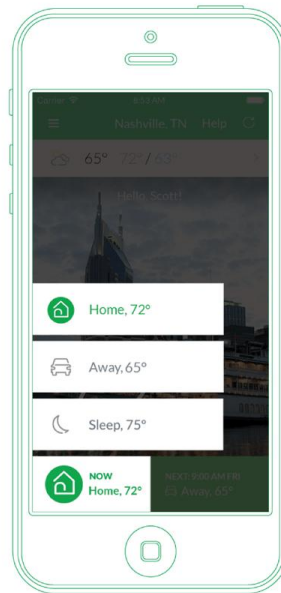

Wiser Forecast

#1 ranked weather service from Schneider Electric, used by the PGA, NFL Network, major airlines and your home.

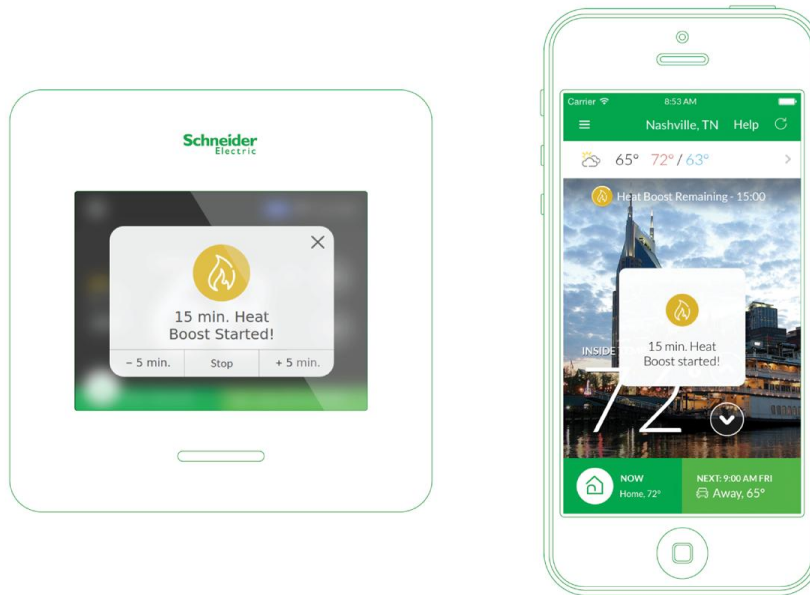

Ready Modes

Use the quick Ready Mode icon to easily set your temperature for home, sleep and away modes.
(Feature upgrade to sync with your schedules - Coming in August 2015)

Comfort Boost

Get a boost of comfort for a set period of time. This feature automatically sets back to the scheduled temperature so you can relax and know you won't waste money

Schedule

Combined with Wiser Comfort Boost, scheduling your thermostat truly lets you "Set it and forget it."
