

Wiser Air

by Schneider Electric.
The smart thermostat.... made Wiser

Comfort Boost

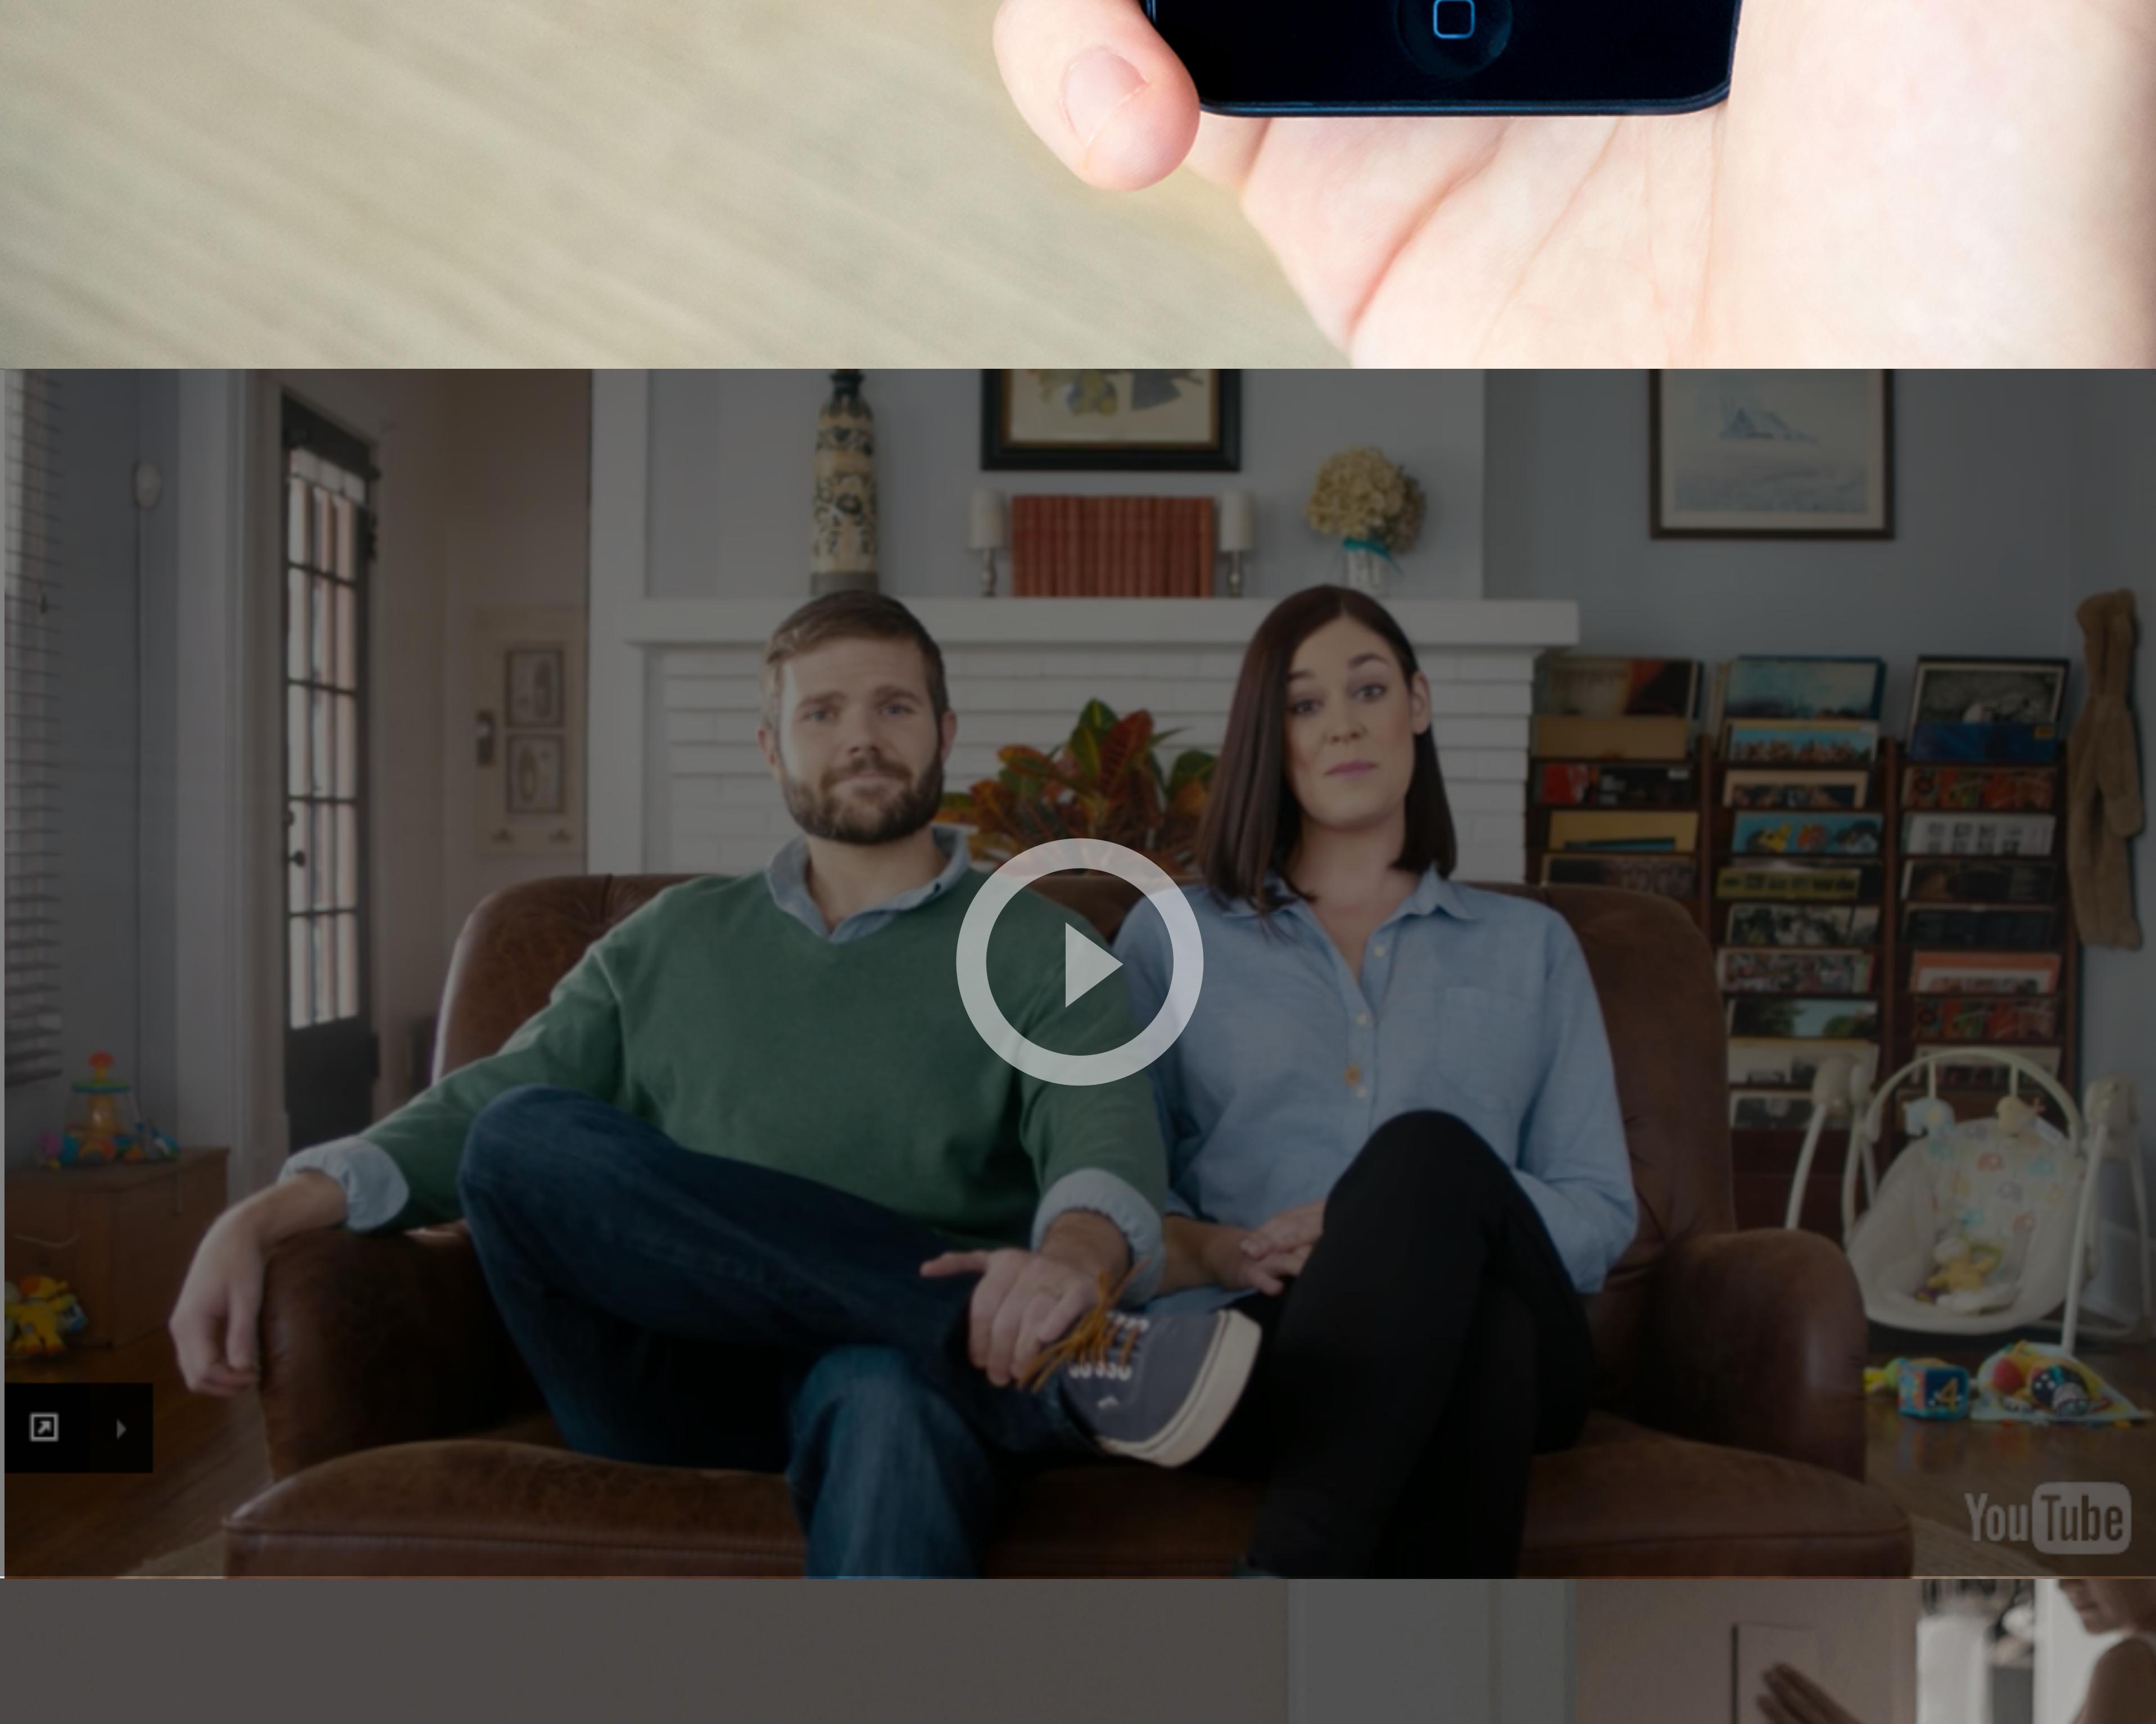

Get a burst of comfort when you want it.
Cool Boost and Heat Boost, at your fingertips.

Is your home packed with
guests and getting too warm?

→ Cool Boost

Did someone forgot to close
the door in winter?

→ Heat Boost

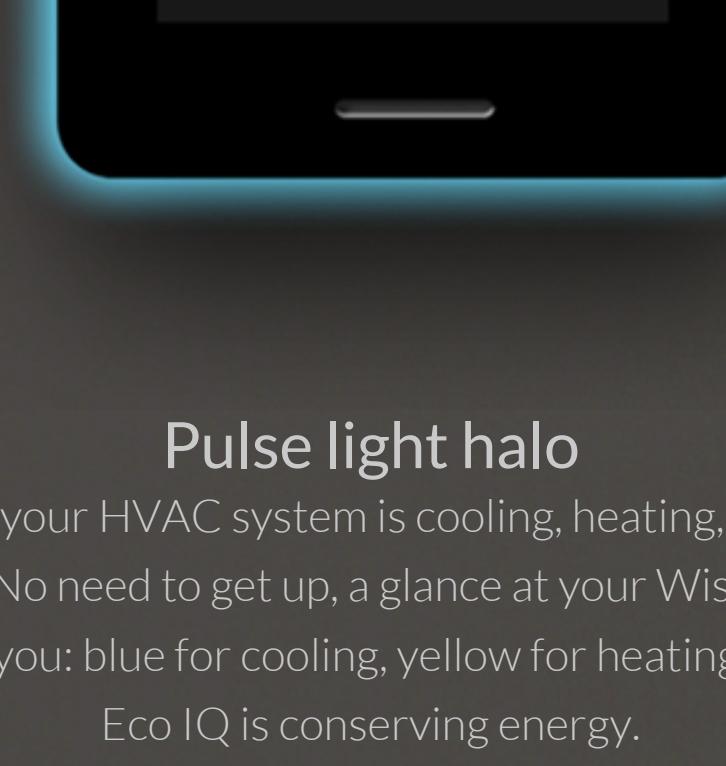

Eco IQ

Effortless comfort and efficiency.

Our Eco IQ algorithm learns your preferences and manages your home temperature all day long by taking into account outside weather, humidity, sunlight and cloud coverage.

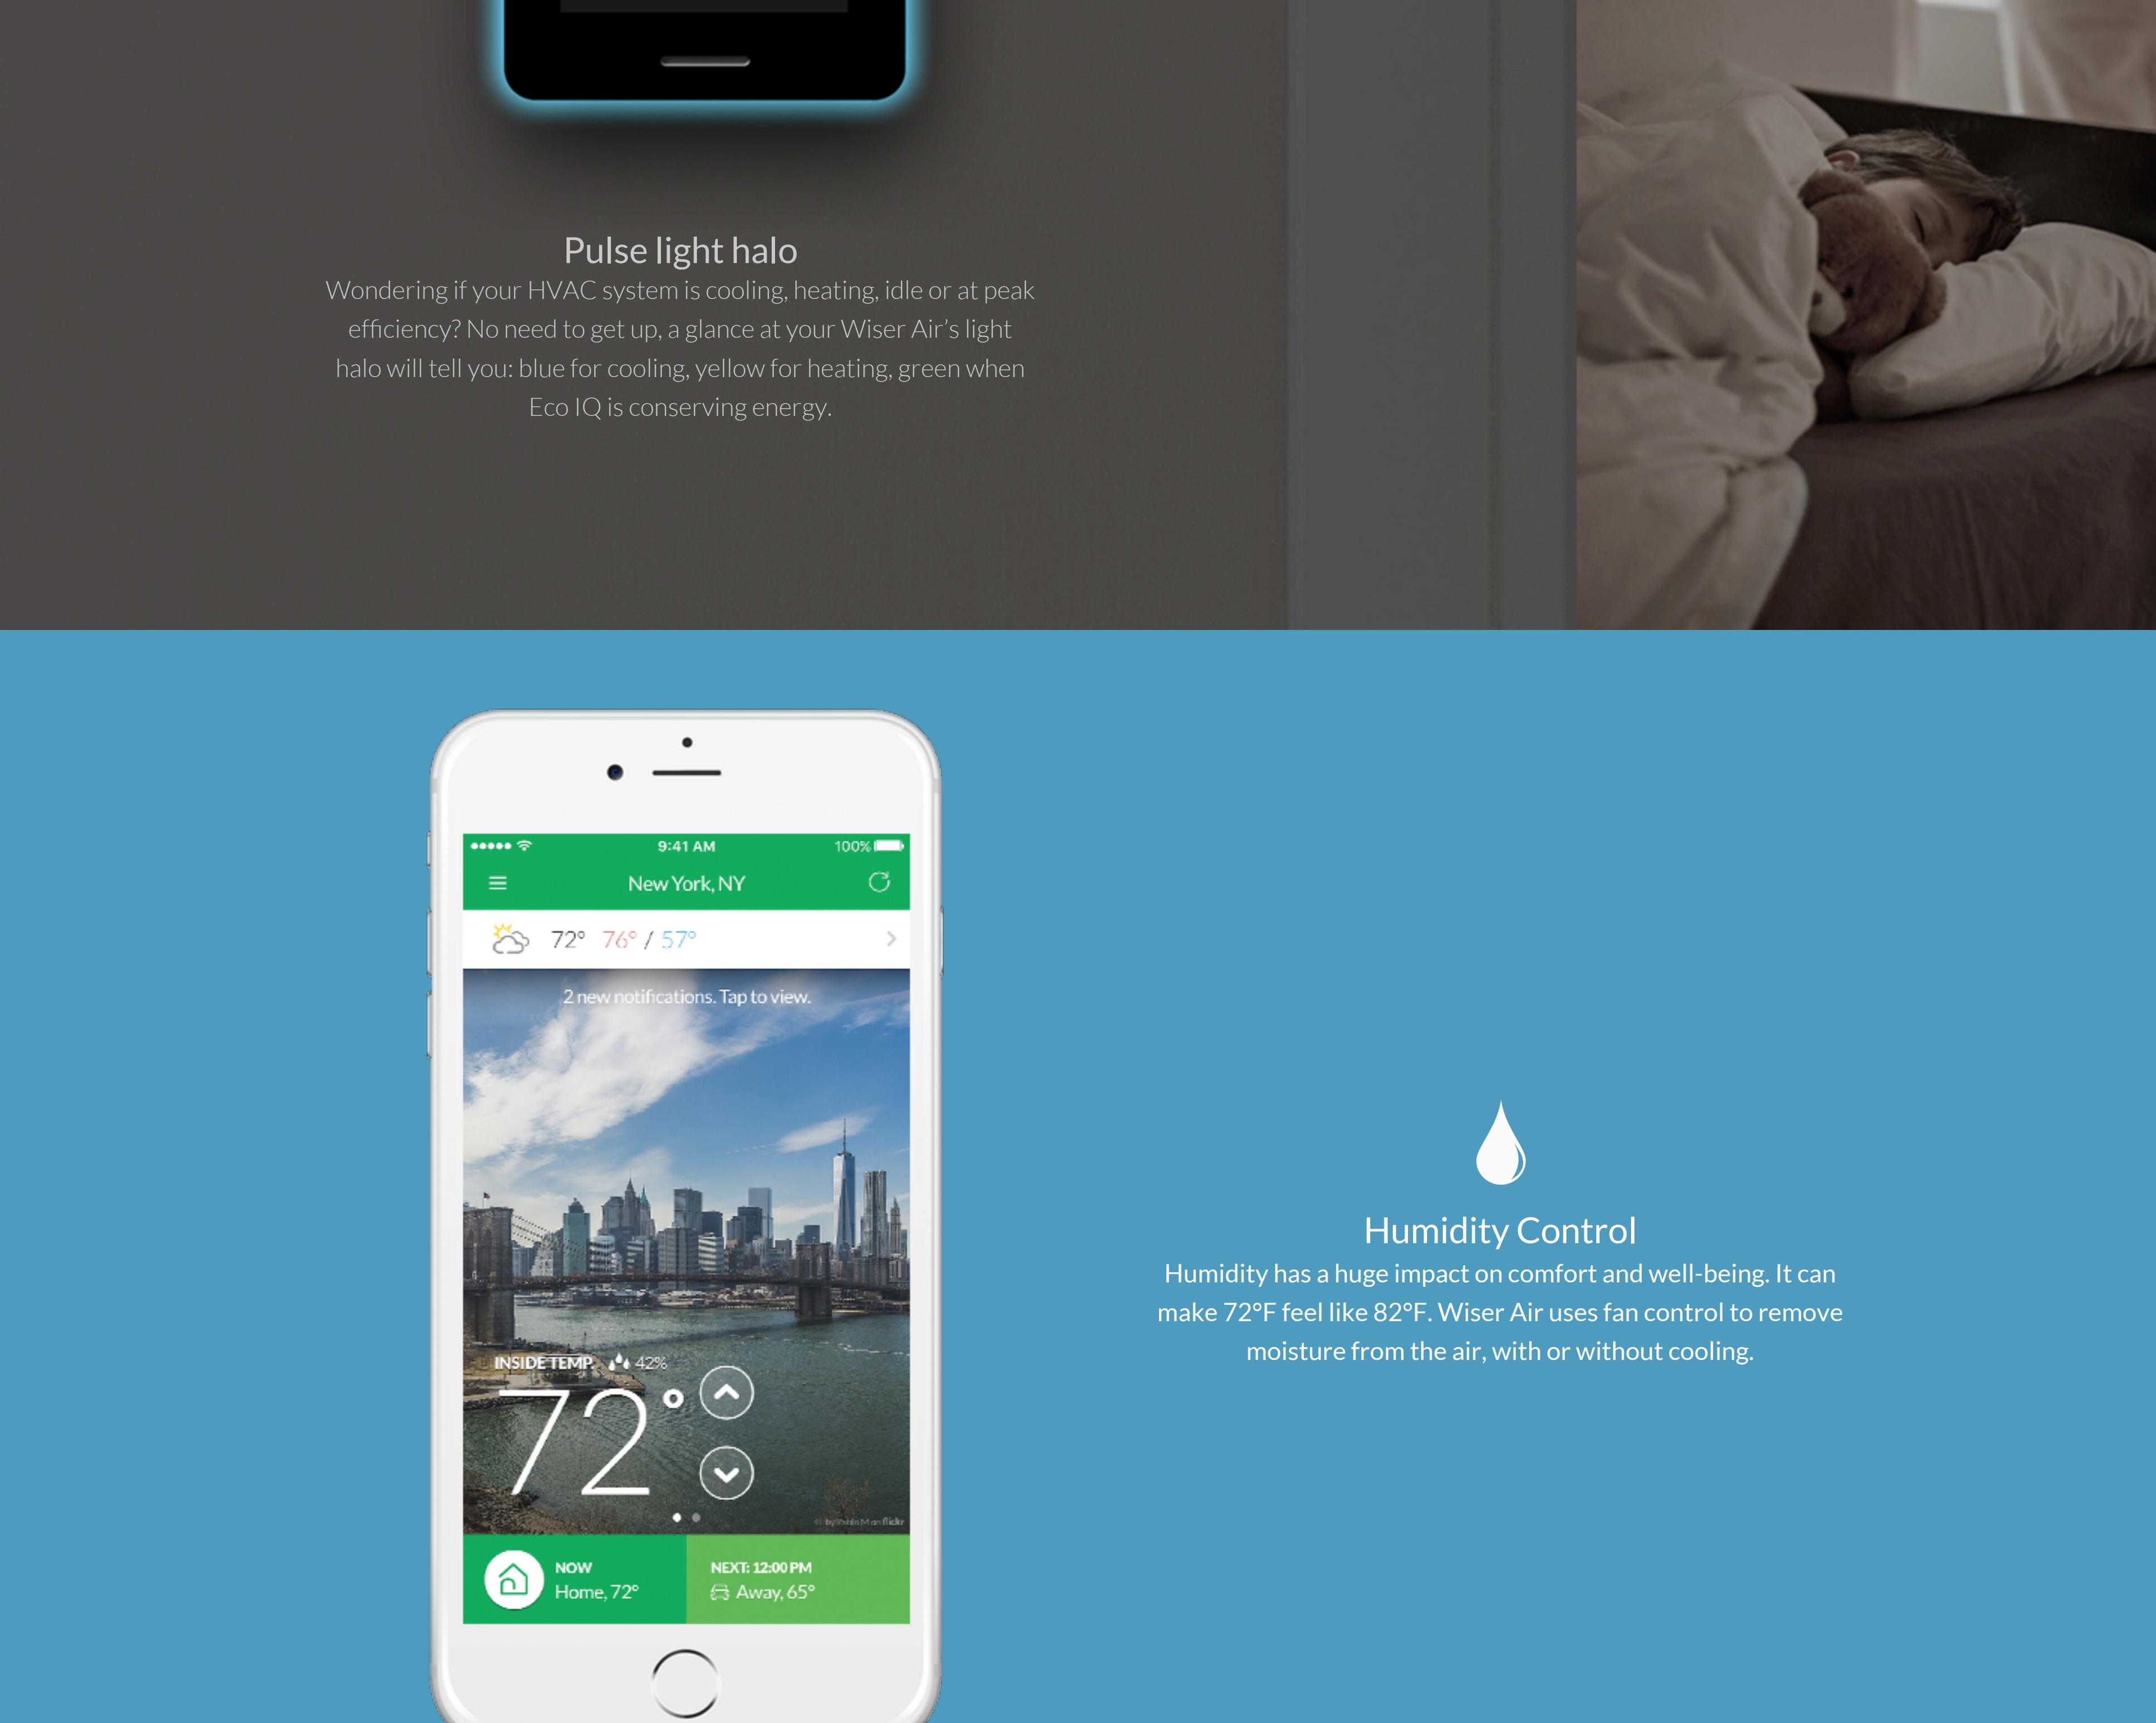

YouTube

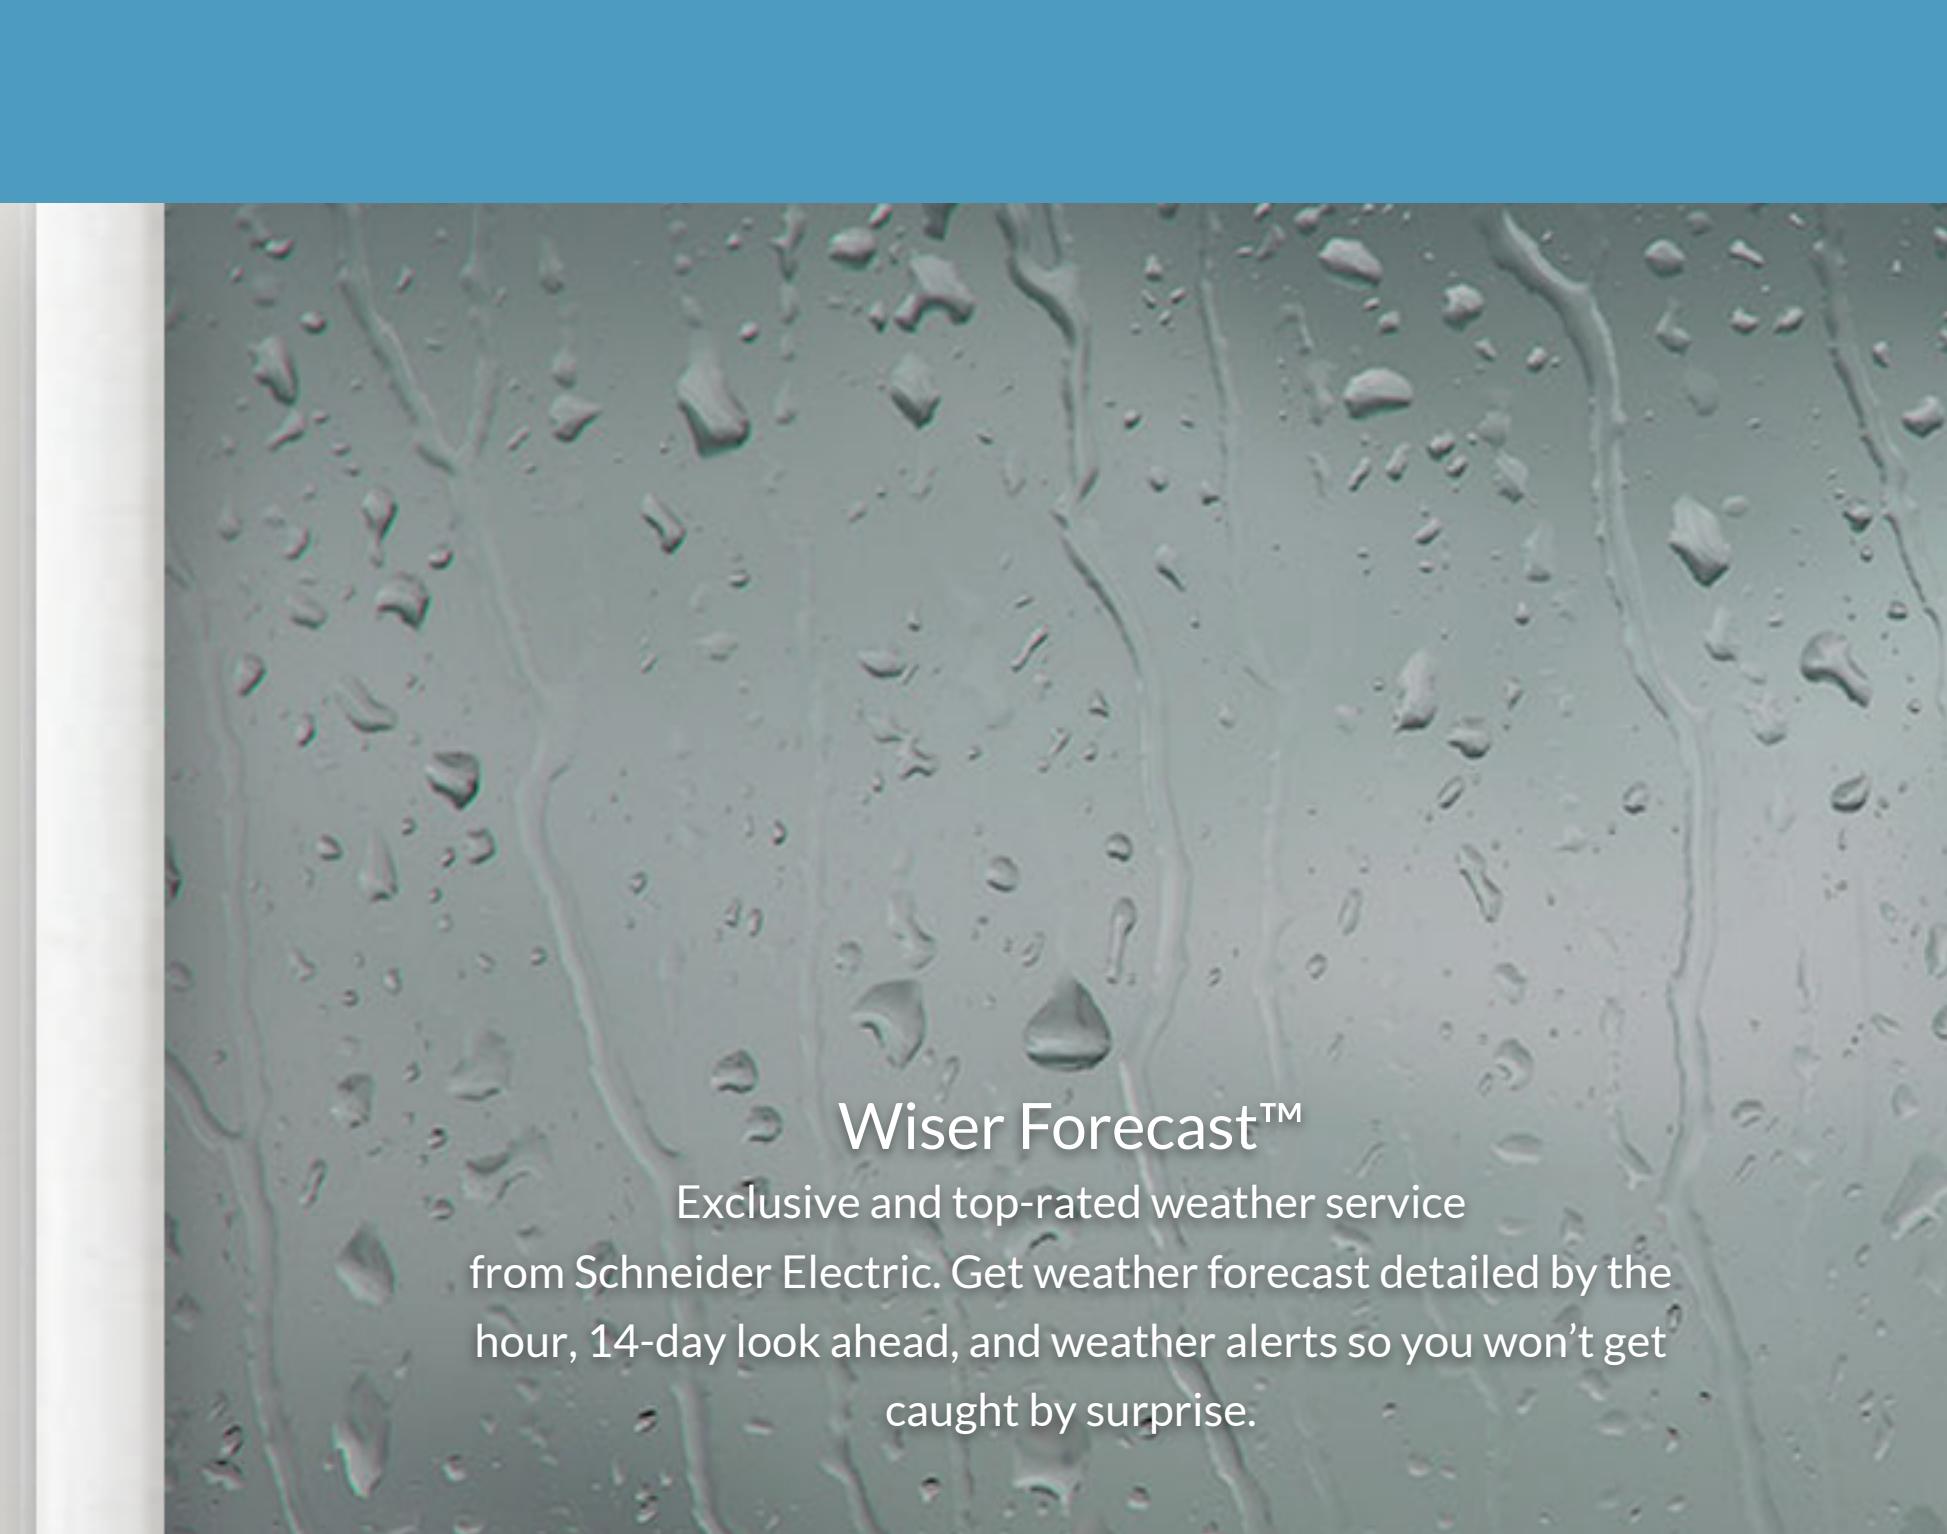

Pulse light halo

Wondering if your HVAC system is cooling, heating, idle or at peak efficiency? No need to get up, a glance at your Wiser Air's light halo will tell you: blue for cooling, yellow for heating, green when Eco IQ is conserving energy.

Humidity Control

Humidity has a huge impact on comfort and well-being. It can make 72°F feel like 82°F. Wiser Air uses fan control to remove moisture from the air, with or without cooling.

Wiser Forecast™

Exclusive and top-rated weather service
from Schneider Electric. Get weather forecast detailed by the hour, 14-day look ahead, and weather alerts so you won't get caught by surprise.
